

# **Cutimed® Off-Loader & Cutimed® Off-Loader Select**

**Total Contact Cast System**

- Cost effective
- Reduces inventory
- Complete treatment kit for diabetic foot ulcers
- 1st choice for wounds not showing significant healing at 4 weeks
- Reduces shear and friction

# Cutimed® Off-Loader & Cutimed® Off-Loader Select

## Total Contact Cast System

Evidenced based treatment guidelines including consensus documents and Standards of Care agree off-loading is required for the healing of diabetic foot ulcers\*1. Now, the world's leading casting company brings you two options for your Total Contact Casting (TCC) needs. The Cutimed® Off-Loader and Cutimed® Off-Loader Select Total Contact Casting Systems offer the premium casting materials in an easy to use kit.

\*1Consensus recommendations , Snyder, Kirsner, Laverly, OWM 2010

Guidelines for the treatment of diabetic ulcers, Steed et al. Wound Rep Reg (2006) Wound Healing Society

### Evidence Based Results

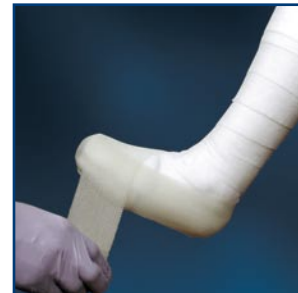

Total contact casting provides higher percentage of ulcers healed vs other methods of offloading\*\*2

90% TCC

65% RCW (Removable Cast Walker)

58% Half Shoe

\*\*Armstrong Diabetes Care 2001; 24:1019–22. [RCT]

Delta-Lite® Conformable offers unsurpassed conformability making casting around difficult angles easier.

### Total contact casting WORKS to remove the barriers to healing in the Diabetic Foot ulcer

Highest reduction in impact, velocity and duration

- Works to significantly reduce repetitive stress injury
- Works to limit time under stress

Highest reduction in Shear forces

- Protects fragile wound bed and wound edges from shear and friction damage
- Reduces inflammation due to repetitive tissue damage

Seals out Contaminants and Bacteria

- Works to reduce opportunities for infection

Ortho-Flex®'s unique gauze enables clinician to cast around difficult angles without tucking or folding.

#### Cutimed® Off-Loader — Plaster and Synthetic Combination

Item	Description	Qty
